

# Loved Despite of Great Faults

## Blonde Redhead

you will move  
with me we will  
stay still and  
words will move around us.  
surround us in gold  
and in our world  
we will be  
silent.you will swim  
to me we will  
be free  
and words will move around us  
swim around us  
surround us in schools  
and in our cool  
we'll be reminded.that you refuse to fade away  
i hide to stay the same  
where do we go from here  
i don't know.for me you flower to be chosen  
i fall down to be noticed  
where do we go from here i don't know.it was a time  
a way of life  
the only secrets  
we talked about  
were all the fears  
in all these years  
we spent together
