

Whatever We Want (CDQ)

Havana Brown

We so high, we can't come down
The world can't touch us now
We're runnin' wild, we're making out
The world can't touch us now We can do what-whatever we want, yeah, yeah
We can do what-whatever we want, yeah, yeah
We can do what-whatever we want, yeah, yeah
We can do what-what....whatever we want I like you inside out
Let's blast the roof off now
We could go all night long
Go hard, or you go home We walkin' on the wild
Bite down like crocodile
We could go all night long
Go hard, or you go home We so high, we can't come down
The world can't touch us now
We're runnin' wild, we're making out
The world can't touch us now We can do what-whatever we want, yeah, yeah
We can do what-whatever we want, yeah, yeah
We can do what-whatever we want, yeah, yeah
We can do what-what....whatever we want
Whatever we want
Whatever we want I like you inside out
Let's blast the roof off now
We could go all night long
Go hard, or you go home We walkin' on the wild
Bite down like crocodile
We could go all night long
Go hard, or you go home I wanna live my life straight outta the box
And throw away the key, breakin' all of the locks
I'm gonna jump right in, say whatever I want
Be whatever I want, do whatever we want We so high, we can't come down
We're runnin' wild, we're making out
The world can't touch us now We can do what-whatever we want, yeah, yeah
We can do what-whatever we want, yeah, yeah
We can do what-whatever we want, yeah, yeah
We can do what-what....whatever we want
Whatever we want
Whatever we want
Whatever we want
Whatever we want I wanna live my life straight outta the box

And throw away the key, breakin' all of the locks
I'm gonna jump right in, say whatever I want
Be whatever I want, do whatever we want
