

# Damaged

## Fear Factory

Consequences that had left me for dead  
Repercussions that went straight to your head  
Trusting in no one, believing in nothing  
Living in a world of pure deception So far this life is contemptuous  
This mind, a gun, so relentless Damn!  
I am damaged for life  
Damn!  
Like I've been crucified  
Damn!  
I am damaged for life  
And I can't believe I'm alive Determined to destroy all that you know  
Conceal your lies in the web you compose  
Trusting in no one, believing in nothing  
Living in a world of pure deception So far this life is contemptuous  
This mind, a gun, so relentless Damn!  
I am damaged for life  
Damn!  
Like I've been crucified  
Damn!  
I am damaged for life  
Damn!  
And I can't believe I'm alive  
Alive So far this life is contemptuous  
This mind, a gun, so relentless Damn!  
I am damaged for life  
Damn!  
Like I've been crucified  
Damn!  
I am damaged for life  
Damn! And I can't believe I'm alive  
And I can't believe I'm alive  
And I can't believe I'm alive
