Todrick Hall

You got that it thing
No your never gonna quit thing
I know your gonna make it someday
(I know your gonna make it someday)Your gonna go far kid
Go follow your heart kid
But don't you dare forget where you came
(Don't you dare forget we're right there)Impossible for use to love you harder
(Right there)
But don't you dare forget your alma mater
(right there)
'Till your on a television screen
So go spread your wings
And go do big things*Chorus*
And where this old big road is gonna lead
I just don't know
And when your gone be strong
Just promise me wherever you go
Don't forget the little people
Always there to cheer you on
Don't forget that their your equal
