

# Poor Misguided Fool

[Starsailor](#)

As soon as you sound like him  
Give me a call  
When you're so sensitive  
It's a long way to fall Whenever you need a home  
I will be there  
Whenever you're all alone  
And nobody cares You're just a poor misguided fool  
Who thinks they know what I should do?  
A line for me and a line for you  
I lose my right to a point of view Whenever you reach for me  
I'll be your guide  
Whenever you need someone  
To keep it inside Whenever you need a home  
I will be there  
Whenever you're all alone  
And nobody cares You're just a poor misguided fool  
Who thinks they know what I should do?  
A line for me and a line for you  
I lose my right to a point of view I'll be your guide in the morning  
You cover up bullet holes As soon as you sound like him  
Give me a call  
When you're so sensitive  
It's a long way to fall You're just a poor misguided fool  
Who thinks they know what I should do?  
A line for me and a line for you  
I lose my right to a point of view
