

No Matter Where I Go

Nate Dogg

No matter where I go
I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeNo matter where I go
I'm lettin' people know
That the pace is never stalling
Even if the sky is fallingI'll never be afraid
As long as I keep my faith
Even if I am still crawling
Won't be mad 'cause some are ballingBut man without the trust, without the loyalty
When you watch your dog just starving
Don't be mad when they start barkin'Here's a suggestion man
Why don't we just wash our hands
'Cause I'm peepin' other pastures
I think it's time I'm my own masterNo matter where I go
I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeNo matter where I go
I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeLong ago, I told my homie
Some people are so damn phony
Sure as the wind blows
They'll try to take your doughOn and on man, they just keep comin'
'Til I'm dead man, I'm never runnin'
Fear I just don't know
If it's your time you gotta goBut what about the trust
What about the loyalty
When the have no respect for you
It's fuck 'em or call your lawyerHere's a suggestion man
Why don't we just wash our hands
'Cause I'm peepin' other pastures
I think it's time, I'm my own masterNo matter where I go

I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeNo matter where I go
I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeHere's to my family
Here's to the ones I really love
Here's to the inmates
And that's who made Death Row number 1Here's to the foundation
And that's where, where it started from
Here's to real freedom
They tell me makin' music's fun
When you got no shackles on your feetNo matter where I go
I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeNo matter where I go
I'm lettin' people know
No matter where you go
The grass is always greenNo matter what you say
You gotta' release them chains
I think it's time I set my spirit freeNo matter where I go
I'm lettin' people know
