

Clean Up Before She Comes

Nirvana

Clean up before she comes
Living in a dusty town
Something in her eyes
Must be the smoke from my lungs
Something in her eyes
Must be the smoke from my lungs
Twenty months has it all
I must be getting old(3x)
Something in her eyes
Must be the smoke from my lungs
Something in her eyes
Must be the smoke from my lungs
Clean up the dusty town
Living in a dusty town
Clean up before she comes
Living in a dusty town
I must be getting old
I must be getting old
I'm starting to eat my vegetables
