

# Wake Up, Little Sparrow

**Devendra Banhart**

Wake up, wake up little sparrow  
Don't make your home out in the snow  
Don't make your home out in the snow Little bird, oh dontcha know  
Your friends flew south many months ago  
Your friends flew south many months ago You're just a babe, you cannot fly,  
Your wings won't spread up against the sky  
Your wings won't spread up against the sky Wake up, wake up little sparrow  
Don't make your home out in the snow  
Don't make your home out in the snow  
Don't make your home out in the snow
