

Trade Money (prod. by Da Beatminerz)

Dilated Peoples

(Jamaican man talking & Babu mixing)

"Everybody got dreams of makin cash money"(Chorus-Iriscience)

Trade money

Different color and shape money (money)

Money that looks funny but never no fake money

Make money, money, but please don't waste money

We don't love money but we don't hate money(Evidence)

Yo, if you live day to day then you proabably live life

More than a cat who got a Benz, bank roll and a wife

'Cause yo, I seen a lot of folks whose so-called success equals depress

And look up to broke peeps who hold mics now

Play the role, reverse and understand

Your friend with no dough might be closer to earth

Take the pressure off the weight and see how it equates

If you hold yourself back to make papes, get it straight(Iriscience)

You can use cash for tools, to get parks and pools

Community centers, rec rooms and schools

Book money, off the books and food money

Rent money, electronic money and crew money

First thing, flippin over dollars, searching

For the eye in the chief corner stone in thirteen

Stay beyond hungry and thirsty, ("dilated")

We're damn near starvin and we're dehydrated(Chorus) 2x(Iriscience)

No credit, everybody has to pay

Dope music, spittin everything from hash to yay

Watch the traffic or you're gonna bring crash this way

Then have 'em swingin at my door like Cassius Clay (no matter)

The game don't exist without roles and rules

But comma manifest as the golden rule

Rolled on wheels in the eighties, they would jack them fools

Flashin trucks and jewels, but not tuckin they truck jewels(Evidence)

Yo, since last year I've accumulated more money

More big breaks, been dressy a little less bummy

But more headaches and more pain in my stomach

On top of that I got a lot of people actin funny

But dummies get exposed when your weapon's are chose

Power to spit out your mouth cold could leave a man fold

Yo, been to certain places where the term "green" don't mean shit

'Cause money's blue and that's what it takes to pay rent(Chorus) 2x(Jamaican man talking & Babu mixing)

"Everybody got dreams of making cash money"
"Everybody got dreams of making cash money"(Evidence)
Yo, trained to be patient but still wait eagerly
Approach easily, backed by walkin Evil Dee
Sell medicine legally with my partners to our clients
(Share the wealth with Babu and Iriscience)(Iriscience)
Navy be, Henny be, Beat Junkies sound
Expansion team, independent dollars, word a mouth
There's cats with twenty/twenty that'll never see money
To get the cash crop you have to plant seed money
Twelve inches spark, now accountants crunch digits
The same cat that battled them fools for lunch tickets
Everyday the rates change and currency's strange
???, international money exchange(Chorus) 4xTrade money, trade money, trade money
Trade money, trade money, trade money
Money exchange
