

# Just Like Me

## Paramore

I slipped down the stairs  
Tripped over your fragile ego  
I slid down the whole way  
Right into the web you'd woven  
[Chorus:] And you never said  
That you meant to save someone  
Somebody just like me  
And you never told me  
That you wanted to love someone  
Somebody just like me  
You locked all the doors  
You felt it was safer that way  
You put up the walls  
And now your whole world is caving in  
[Chorus:] You swallow your pride as

Your left behind  
Counting stars to name your lies  
You let the rain push you away  
And now your drowning in the ways  
You never said  
That you meant to save someone  
Somebody just like me  
You never told me  
You wanted to love someone  
Somebody just like me  
And you never told me  
That you wanted to love someone  
Somebody just like  
Somebody just like me  
And you never said  
That want to save someone  
Like me  
Somebody just like me
