

Desert Dub

Orange Blossom

I've got a dream that you want
All wrapped up nice and pretty
I've got that candy for you
All flavors just in one biteWo hoo hoo woo hoo woo
woo hoo hooThat ain't true
None of it is all that just true
That ain't true
Just a story that won't come true
Teleport me out of this place, far away
Teleport me some place away
nowhere but hereTake me away, take me awayI've got a song for you
All written beautifully
It'll make you wanna stay here
Until the dawn of the dayWo hoo hoo woo hoo woo
woo hoo hooThat ain't true
None of that will ever come true
That ain't true
Just a story made up with lies
Teleport me out of this place, far away
Teleport me some place away
nowhere but hereTake me away, take me away
