

Our Demons

The Glitch Mob

No wonder, you're so stubborn
Nobody ever made you dig deeper
No wonder you've got demons
Everything you ever did is coming back around
I can't help you, if I'm weaker
You took the honey from the queen bee keeper
No wonder, you have demons
Everyone's got a choice this time around
Around
No wonder, you're so stubborn
Nobody ever made you dig deeper
No wonder you've got demons
Everything you ever did is coming back around
I can't help you, if I'm weaker
You took the honey from the queen bee keeper
No wonder, you have demons
Everyone's got a choice this time around
Everything you ever did is coming back around
