

Audience

Cold War Kids

Sunday nights that you want her like velvet cake
Sweet heart can bargain half price mistakes
She will go down with her ship like a good captain
You're sitting on the dock playing for an audience of one Pacing your apartment, linoleum floors
Get a call from an old friend, she never liked him before
He will drive all over three lanes, you sit tight, shotgun
Windshield wipers waving for an audience of one You came out from the country wearing mama's clothes
You were born in the city with daddy's domino's
You need a record you can move to, well, we got one
Drop the needle, we are playing for an audience of one
Drop the needle, we are playing for an audience of one One gets all of you, two's jealous, three gets even less
Four divides you up then you're left pleasing all your guests
