

# Do You Know

## Total

Do you know, you put me under?  
I start to wonder, how do you know  
How I feel when you're around me  
I can't control it, how do you know? Many a day goes by, when I'm just sitting around  
Letting the time go by, there's nothing else to do  
Oh no, at least not till I found you Do you know, you put me under?  
I start to wonder, how do you know  
How I feel when you're around me  
I can't control it, how do you know? It feels so good to let you know how I'm feeling  
But you seem to know these things, you make  
My heart sing every time you walk into the room Do you know, you put me under?  
I start to wonder, how do you know  
How I feel when you're around me  
I can't control it, how do you know? Can you really see, baby what you do to me?  
How I'm feeling I just can't control it  
Do you really know how I'm feeling? Does it show?  
Boy, you know you really put me under Do you know, you put me under?  
I start to wonder, how do you know  
How I feel when you're around me  
I can't control it, how do you know? Do you know, you put me under?  
I start to wonder, how do you know  
How I feel when you're around me  
I can't control it, how do you know? Do you know, you put me under?  
I start to wonder, how do you know  
How I feel when you're around me  
I can't control it, how do you know?
