

# Until You (New Version)

**Dave Barnes**

Let's just take our time  
There's nothing else to do  
What better way to spend the night  
Than wasted here with you  
The moon has won the war  
The daylight waits to win  
Stay here by my side we'll watch  
The struggles start again I need you now and forever  
So stay right here with me  
Don't ever leave  
Love was kept from me like a secret  
And I swore that I was through  
Until you, until you The city settled down  
I watch you as you sleep  
There's a silent celebration for  
Every breath you breathe  
Now this all makes sense  
You ask company  
I left all I knew with the better part of me I need you now and forever  
So stay right here with me  
Don't ever leave  
Love was kept from me like a secret  
And I swore that I was through  
Until you, until you The time it took to find you  
I will wait again  
The feelings that I feel  
When you lie yeah yeah yeah I need you now and forever  
So stay right here with me  
Don't ever leave  
Love was kept from me like a secret  
And I swore that I was through  
Until you, until you Until you until you until you
