

Wasted Hours

Arcade Fire

All those wasted hours we used to know
Spent the summers staring out the window
The wind it takes you where it wants to go At first they built the road then they built the town
That's why we're still driving around and around
And all we see are kids in the buses longing to be free Wasted hours before we knew
Where to go and what to do
Wasted hours that you make new
And turn into a life that we could live Some cities make you lose your head
In this suburb stretched out thin and dead
What was that line you said?
Wishing you were anywhere but here
You watched the life you're living disappear
and now I see, we're still kids in the buses longing to be free Wasted hours before we new
Where to go and what to do
Wasted hours that you make new
Turn into a life that we could live
