

# Scientific Love

## Midnight Star

Are you out to stay too late  
Come here dating to find a mate?  
Two hearts, a scientific find  
Searching for love for a very long time  
So I got my eyes on you  
Take time to know me and show this clue  
Show me what you're afraid of  
I need much more than a one-eyed lover

Two hearts can feel like one  
It's scientific love  
You would be havin' fun  
It's scientific love

You are the one right to be  
Finally keeping me company  
Can't stop this difficult reaction  
Better if we make it everlasting  
So you don't want to be alone  
You'd better walk into my heart right now  
And if you want to be free now  
Well I'm telling you scientifically

Two hearts can feel like one  
It's scientific love  
You would be havin' fun  
It's scientific love  
Two hearts can feel like one  
It's scientific love  
You would be havin' fun  
It's scientific love

Scientific love  
Scientific love  
Scientific love

So you don't want to be alone  
You'd better walk into my heart right now  
And if you want to be free now

Well I'm telling you scientifically

Two hearts can feel like one  
It's scientific love  
You would be havin' fun  
It's scientific love

I like the run, I like the chain  
I'd like to be the scientific man  
I want to hug it, squish it, make it feel right  
I think that's just around midnight  
If Einstein were around today  
He would teach how to love the scientific way  
If it's true that E=MC squared  
Just call me midnight, I'll see you there

I want it, I need it, I can't go without it  
Scientific love  
I want it, I need it, I just got to have it  
I really need your love

---
