Carrion Sculpted Entity

Cannibal Corpse

Carnage formed rebirth
A sickened lust of hatred
Damned to an eternal plight
Obscene art alive through deathCrafted gore
Masterful slaughtering
Splatter soaked
Sinister demon incarnateMaggots feast
Horrible putrid thing
One more piece
Scraped from bone, born of decadenceCreated from decay
Cold innards used for torture
Prey sought by a twisted beast
Pray to hell no one survivesBlack blood horror
Normalcy won't return
Guts of the dead
Severed hearts pulsate stagnant pusCarves dying flesh
Brutal filth reeks of rot
Layered disgust
Undead pawn made to decimateCarrion sculpted entityRancid soul
Lives again immortal
Stench repulsive
Half eaten vultures picked apartMolded scum
Archaic implements
Insanity
Covets pain vile anomalyCarnage formed rebirth
A sickened lust of hatred
Damned to an eternal plight
Obscene art alive through deathLiving in this state uncontrolled
Vengeful mutant, evil creature
Unrelenting thirst for bloodDying by the nightmares told
Murder, murder, murder, murdererBlack blood horror, guts of the dead
Art that's living, never dying
Unrelenting thirst for bloodCarrion sculpted entity
