

Love Test

The Growlers

Says i don't know how you find love in LA
they don't make em like they do in the country
The city moves to fast to appreciate
all the time it takes for sweet loving Listen for faith's whisper
it will try and warn you
Telling your heart to be cautious of a lover trying to harm you All the girls in LA look like their fading away
a women should be strong with thick legs and big arms
No stars in the sky they put them on the street
with the bums and the tramps that nobody needs. Listen for faith's whisper
it will try and warn you
Telling your heart to be cautious of a love and trying to harm you You know they say it aint easy
loving the same women forever
Wishing luck on finding a good one
on your hearts endever
cause nothing is easy, Love isn't easy as it seams You can test a women for honesty
You can go and test her for goodness
But its a wicked game and a crying shame
theirs no way to give her a love test Listen for faith's whisper
it will try and warn you
Telling your heart to be cautious of a love and trying to harm you You know they say it aint easy
loving the same women forever
Wishing luck on finding a good one
on your hearts endever
cause nothing is easy, Love isn't easy as it seams
