Celebration

David Coverdale

(coverdale/moody)I was running for the folks I know
Never had it good
But don't know if they're feeling fine
Had to leave them soon
Recently I seem to have
Become a new born man
I want to share with everyone
What happened in my pastOpen up the door,
Gonna be down the road
Celebration, celebration,
Celebration, celebrationFeeling come and go again
Never have to please
After she let you down
Bring you to your kneesWhen you're feeling good,
Nothing you can do
Gonna take you to the mardi gras
Piss it out on youGonna make you feel alright
Gonna make it through the night
Celebration, celebration,
Celebration, celebrationIf you want to know
What happend in the past
Never had it good
Come on in and see the crime
I really believe they shouldRecently I've seen to have
Become an new born man
I want to share with everyone
What happened in my pastI've never been one to tease
Only want to please
Celebration, celebration,
Celebration, celebrationCelebration - I just want to celebrate
Celebration - gimme two, give me one
