

Godlike (Midnight Riot Disco Mix)

Puzzle

Used to turn to you for answers
Oracle of mine
You're a crumbling superpower
A stranger in my eyes Used to turn to you for shelter
From the fury of the skies
Now I see you as a whisper
Just a ghost of the divine I thought that you were
Godlike
But you're only human Wandering like a
Lost child
Just Another human like me
Human like me I don't mean to sound ungrateful
Just discovering the truth
Superheroes are a fable
We're mirrors, me and you In the magic that we left behind
Innocence can't be recovered
Now we're seeing eye to eye
It can only make us stronger
