

I'll Meet You There

[Rebecca Ferguson](#)

It's been a long time
How can this go on
You've said the wrong words
So I'm writting this song
The less you left
It was my cry in best
It wasn't my falt
And I was, I don't know, I was nothing nothing
Did I ever trully mean nothing nothing
Let's you try to tell myself I was something
'Cause that's easier to take
And I'll meet you there
Between the rigth and the wrong
I'll meet you there
Between the good and the bad
I'll meet you there
There's a feel of peace
We are children
