

Easy to Love

Ivan & Alyosha

When the sky turns black
And we know it will from time to time
We've been through that
And we came out on top because You're really easy to love
You're really easy to love And I know you're good
You know I try most of the time
We've been through that
And we came out on top because
You're really easy to love
You're really easy to love When I can't take it
My heart is achin' You're really easy to love The sky turns black
Hmmm
We know it will from time to time
And we've been through that
And we came out on top because You're really easy to love
You're really easy to love
When I can't take it
My heart is achin' You're really easy to love
Ooooh oooh oooh ...
