

# I Loved You

Alice Russell

I loved you  
I feel you  
I loved you  
I feel you When we were young  
With wild hearts  
And wild souls  
Beneath the dreams  
An open sea  
A life for miles  
Stretched out before I miss your voice  
And how it felt  
We had it whole  
With wild souls  
You were away  
Across the sea  
You left a cry But now I know  
How it feels when it's cold  
As the winter rose in to your heart  
And the tears row with words  
Don't you long for the start  
Long for the start I loved you  
Hanging on to these words I feel you let me by  
I feel you  
Hanging on to these words I feel you So looking back  
You went this way  
Got caught in the wind  
That blue way  
But while its souls  
Tell fruit for tales  
A city's long So now I know  
How it feels when it's cold  
As the winter rose in to your heart  
And the tears row with words  
Don't you long for the start  
Long for the start I loved you  
Hanging on to these words I feel you let me by  
I feel you  
Hanging on to these words I feel you I loved you  
Hanging on to these words I feel you let me by

I feel you  
Hanging on to these words I feel youI loved you  
Hanging on to these words I feel you let me by  
I feel you  
Hanging on to these words I feel youI loved you  
Hanging on to these words I feel you let me by  
I feel you  
Hanging on to these words I feel youI loved you  
I feel you
