

Let Your Heart Lead

Elliott Yamin

Ooh ooh
You seem preoccupied
I see it in your eyes
You've got that worried look again
You're thinking way too much
You're losing faith in us
I can tell your close to giving in
Don't keep trying to overanalyze
You're denying how you're feeling inside
Just this time before you make up your mind
Let your heart lead and maybe it'll find me
Baby it'll find me ooh
You tried to figure out
Why you have so many doubts
But now you're even more confused

Come here close to me
I wanna put your mind at ease
There's only one thing that I need you to do
Don't keep trying to overanalyze
You're denying how you're feeling inside
Just this time before you make up your mind
Let your heart lead and maybe it'll find me
Maybe it'll find me oh woh
Don't keep trying to overanalyze
You're denying how you're feeling inside
Just this time before you make up your mind
Let your heart lead and maybe it'll find me
(Maybe it'll find me)
Ooh
Let your heart lead
And maybe it'll find me
Oh wooh oh
