Hello Tyrannosaurus, Meet Tyrannicide

Enter Shikari

Hello Tyrannosaurus, meet Tyrannicide
You haven't read your history have you? Just regurgitated lies
And everything taught to you, no man is too tall
You can grow but remember, empires always fall
We're not your subjects, You're not our King
Nature is the only dictator, that I respect and obey
You don't invent, You don't create
Now's our time to eradicate
Hello Tyrannosaurus, meet Tyrannicide
You haven't read your history have you? Just regurgitated lies
And everything taught to you, no man is too tall
You can grow but remember, empires always fall
We're not your subjects, You're not our King
Nature is the only dictator, that I respect and obey
You don't invent, You don't create
Now's our time to eradicate
We will torture, we will slaughter in your name
We will occupy and we will invade

We will silence and suppress without blame
We will rape, steal, destroy all you've made
Hello Tyrannosaurus, meet Tyrannicide
You haven't read your history have you? Just regurgitated lies
And everything taught to you, no man is too tall
You can grow but remember, empires always fall
Empires always fall
Empires always fall
Concrete Eye contact
Dig your nails into your palms
HELLO TYRANNOSAURUS (GWRAAAR)
Empires always fall
Empires always fall
Empires always fall
Empires always fall
