

I Think About You

Ross Lynch

Last summer we met
We started as friends
I can't tell you how it all happened
Then autumn it came
We were never the same
Those nights everything felt like magic And I wonder if you miss me too
If you don't here's the one thing that I wish you knew I think about you every morning when I open my eyes
I think about you every evening when I turn out the lights
I think about you every moment, every day of my life
Your on my mind all the time
It's true
I think about you you you you you
I think about you you you you Did you know what to say
if I saw you today?
Would you let it all
crumble to pieces?
Cause I know that I should
Forget you if I could
I can't get for so many reasons I think about you every morning when I open my eyes
I think about you every evening when i turn out the lights
I think about you every moment, every day of my life
Your on my mind all the time
It's true
I think about you you you you you
I think about you you you you you How long 'til stop pretending
what we have is never ending oh ohh
If all we are is just a moment,
Don't forget me cause I won't and
I can't help myself. I think about you. Ooh, ooh.
I think about you. Ooh. I think about you every morning when I open my eyes.
I think about you every evening when I turn out the lights.
I think about you every moment, every day of my life.
You're on my mind all the time. It's true. I think about you, you, you, you.
I think about you, you, you, you.
