Need You Like a Drug

Zeromancer

Inject, need you like a drug
Shoot it upYou've got a halo hangin' over your head
Nothing can touch you, nothing can hurt you
You take the world out of my eyes
You suck the words out of my mouth
When we kissNeed you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drugDon't ever want to be like you
You have your friends calling you to say
That nothing can touch you and nothing can hurt you
Nothing can take your fantasy awayNothing can touch you and nothing can hurt you
When we kissNeed you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drugYou keep fucking it up
It stings like a needle in me
You keep fucking it upNeed you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drug, need you like a drug
Can't make it stop, keep fucking it upNeed you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drug, need you like a drug
Can't make it stop, keep fucking it up
Need you like a drug
