

Evacuate

The Fabulous Thunderbirds

I dont wanna say
If it goes away
And I dont wanna try
You dont have to lie
And I dont think I said
What I should have said
I never caught you out
Though I had my doubts

Wait

When theres nothing left to waste
On a promise I can make
You dont want no one this way

Wait

And I dont see inside
Where you try to hide
And I dont wanna do
What you asked me to

Wait

When theres nothing left to waste
On a promise I can make
You dont want no one this way

Wait

We see each other from the corners of the room

I think that when this mess is over

Never make a move

When all I see is broken down to every size

I will remember how I got here

Love in every eye

I dont remember if the rest are ever good enough

And I dont remember if the rest will ever mean as much

And I dont wanna say

If it goes away

And I dont wanna try

You dont have to lie
