You Never Know

Solid Base

You tell me that I am gonna fail but you
Never know, never know, never know
Never know.
You never knowTake the chance, think of what you do
Ain't no time to play around
Make a way for a better day
So you stay and make it right
You tell me that I am gonna fail but you...Make a way, I am here to stay
There's no way I'm going down
Believe in me, you can set me free
Cause I know you'll be around
You tell me that I am gonna fail but you...Give yourself the chance to do it all
You'll not regret it
Always having fun enjoying life cause you...
