I Could Never Be Without You

Enuff Z'Nuff

I hope you see it will be all right.
Make love to me, but make it all night.
To touch your touch, to feel your feel,
Your body next to mine.
To hear you'll always stay with me
Until the end of time.I could never be without you,
I could never live alone.
I will be your friend forever,
Just keep me from life on my own.I don't know how I ever found love.
Right up 'til now there was no such.
Please don't fear a thing about us,
Just believe in me.
If you ever fear you doubt us
Let me make you see.I could never be without you,
I could never live alone.
I will be your friend forever,
Just keep me from life on my own.
