

Spider Webs / Insect Eyes

Beekeeper

oh there it is brewing deeply inside of me
such an evil philosophy
if only the good die young then i know why
i remain in this world so alive
im surrounded by spider webs, insect eyes
and all other follies of the wise
im half-starving, half-satisfied, all the while
choose between morality and stylepour us down the tubes
cause you chose this
were racing to confuse
its not quite clear
wholl die, this time, insidethe freedom that we found
the fantasy we foundoh there it is brewing deeply inside of me
such an evil philosophy
if only the good die young then i know why
i remain in this world so alive
im surrounded by spider webs, insect eyes
and all other follies of the wise
im half-starving, half-satisfied, all the while
choose between morality and stylepour us down the tubes
cause you chose this
were racing to confuse
its not quite clear
wholl die, this time, inside
but ill...you will, you will, you will fall you will
(you will spin out)
when i catch youyou will spin out... (Mariah Carey vocals)
the freedom that we found
