

# Come On

## Number One Fan

The symphony in your head  
The kind of things I wish that were never said  
I had no idea  
Break my heart another day.  
You lost what you wanted  
Did you want it this way?  
I had no idea Come on, I thought we were just having fun  
Come on, It's all in your mind she said  
Don't be afraid of it, falling in love. Broken heart, what's the matter?  
You knew it was coming,  
boy it didn't change a thing.  
I had no idea.  
Let it get to you on the way back.  
Summertime love, the only thing we  
could have.  
I had no idea. Do what you want if it's on your way back down.  
Do what you want if it's on your way back home. Come on, isn't this fun?
