She Loves Me The Way That I Love You

Charley Pride

She's the closest thing to happiness I found since losing you
My chance to live and love again just someone that I turn to
No I can't love her completely she knows what I'm going through
Cause she loves me the way that I love you
She's all the strenght I'll ever need to get me over you
She'll help me make you someone in the past that I once knew
She's beside me when I need her and these arms she'll never use
Cause she loves me the way that I love you
She wants me to want her the way that I want you
But now she's just someone to help me ease the hurt you put me through
No she won't erase your footprints but in time she'll fill your shoes
Cause she loves me the way that I love you
No she won't erase your footprints...
