Love Affair

Kylie Minogue

Here in the moment that I belong
In a waking dream
The night is young, but isn't long
If you know what I mean?
Oh! It's beautiful
The thought of what might be
Close your eyes so you can see
I am only here for a little while
Would you like to take me out tonight?
Maybe we could talk for a little while, baby
Now we've only just begun
We're running out of time
I don't wanna think about the sun
No not tonight
Oh! It's wonderful
You bein' here with me
Close your eyes so you can see
I am only here for a little while
Would you like to take me out tonight?
Maybe we could talk for a little while, baby
Don't hold back it's time for a love affair
Take my hand lead me to anywhere
Maybe there's somethin' in the air, baby
Together here, together now
In the moment that we meet
Remember here, remember now
It's too easy to forget
Oh! it's wonderful
You bein' here with me
Close your eyes so you can see
I am only here for a little while
Would you like to take me out tonight?
Maybe we could talk for a little while, baby
Don't hold back it's time for a love affair
Take my hand lead me to anywhere
Maybe there's somethin' in the air, baby
I am only here for a little while
Would you like to take me out tonight?
Maybe we could talk for a little while, baby

Don't hold back it's time for a love affair
Take my hand lead me to anywhere
Maybe there's somethin' in the air, baby
