

Punk Rock Lullaby

Scotty Don't

from the time that we were small/ we could conquer it all/ and the youth that we passed/ it all happened so fast/
but i never thought the day/ that you would go away/ would happen in a flash/ i hoped our good times would
last/ you were innocent and wild/ from the time you were a child/ you'd do anything you could/ just like any
best friend would/ now it's time for me to say/ that I'll see you every day/ in my thoughts, my hopes, my
prayers, my dreams/ Til I see you again/ [CHORUS] I can't wait/ till we're together my friend/ try to find you
again guess I'll just have to wait til the end/ I'll have to hold to what you left behind/ In our acres of green grass
it's forever incased in my mind/ I'll miss you til the end of time*/ just know we're moving on with you/ and
that's all we can do/ and every step we'll take with pride/ knowing our souls are marching side by side/ although
our worries are strong/ you keep us moving along/ knowing every single day/ you'll never put us away/ and as
the time starts to pass/ we'll never loosen our grasp/ we've been together from the start/ and that will never
come apart.
