The Notion

FM Static

She knows that I'm waiting by the door
I know that she's trying
To cover up staring at the floorLet's go, don't say, maybe
Forget everyone around let's together and get down
I know it sounds crazy one, two, three times a ladyOh no, I've got the notion
Let's get together and start the commotion
Round and round till everyone stops
'Til the next needle on the record player dropsIt's almost time to say our goodbyes
And get home tonight
Let's do it up one more time
Show these people what we had in mindLet's go, don't say, maybe
Forget everyone around let's together and get down
I know it sounds crazy one, two, three times a ladyOh no, I've got the notion
Let's get together and start the commotion
Round and round till everyone stops
'Til the next needle on the record player dropsOh no, I've got the notion
Let's get together and start the commotion
Round and round till everyone stops
'Til the next needle on the record player dropsOh no, I've got the notion
Let's get together and start the commotion
Round and round till everyone stops
'Til the next needle on the record player dropsOh no, I've got the notion
Let's get together and start the commotion
Round and round till everyone stops
'Til the next needle on the record player drops
