Maybe

No Angels

Maybe it's the way you used to love me

Maybe it's the way I feel you now
I'm feeling like the sky is fallin on me

And my life is tumbeling downMaybe I'm lost in the moment
I don't wanna be found

Feel like I must save the momentMaybe I'm a fool for lovin you Maybe you're right and maybe I'm wrong

Maybe cause I don't know what to do

Won't somebody please help me

Maybe I got something else to say

It really doesn't matter anyway

It's just a little word an empty call

No maybe means nothing and allMaybe one day I win the lottery

Maybe I'll be poor all my life

And there so many possibilities

All I got to do is try try tryBut I'm still lost in this feeling

Now I wanna be found

Can anyone stop me from fallingMaybe I'm a fool for lovin you

Maybe you're right and maybe I'm wrong

Maybe cause I don't know what to do

Won't somebody please help me

Maybe I got something else to say

It really doesn't matter anyway

It's just a little word an empty call

No maybe means nothing and all I won't be waiting I can't be waisting no more time

Cause I got dray the line sometime

No second guessing it's only messing with my lige

I don't want it anymore noMaybe I'm a fool for lovin you

Maybe you're right and maybe I'm wrong

Maybe cause I don't know what to do

Won't somebody please help me

Maybe I got something else to say

It really doesn't matter anyway

It's just a little word an empty call

No maybe means nothing and all
