

I Dream About You (feat. Juliet Simms)

Simple Plan

Some people dream about money and fame
Taking miles on private planes
But they don't know you like I know you
Some people dream about looking good
Like movies stars and hollywood
But they don't know you like I know you
They don't understand, they think I'm a fool
If only they could see
I dream about you
Heaven only knows I do
I dream about you
Every single night it's true
I dream about you
People wanna drive fancy cars
Maybe someday reach the stars
But they don't know you like
I know you I would rather spend all my days
Reminisce about yesterday
When I would stand right beside you
You don't understand, you think I'm a fool
If you only you could see
I dream about you
Heaven only knows I do
I dream about you
Every single night it's true
I dream about you
I never, I never wanna wake up
No I never wanna wake up
I never, I never wanna wake up
No I never wanna wake up
I dream about you
Heaven only knows I do
I dream about you
Every single night it's true
I dream about you
Heaven only knows I do
I dream about you
Every single night it's true
I dream about you
