

Slow

Hurts

I can't breathe
I can't sleep
I know I can't afford you But all I can think
When you take off your mink
Is it's over I just wanna love ya
I just wanna hold you close
What you're doing here is murder
When you whip your body slow Slow Rent me your body
I'll pay with my soul
Take out my heart as an offering 'Cause when you grind your gears
It fills me with fear
And it's over I just wanna love ya
I just wanna hold you close
What you're doing here is murder
When you whip your body slow Slow
Slow Whip your body
Whip your body slow
Whip your body slow I just wanna love ya
I just wanna hold you close
What you're doing here is murder
When you whip your body slow Slow
Slow
