

State of Mind (Live Acoustic)

Fish

I don't trust the government, I don't trust alternatives
It's not that I'm paranoid, it's just that's the way it is
 Every day I hear a little scream inside
 Every day I find it's getting louder
 I just want to reach out and touch someone
'Cause I find I need a friend in this dark hour
 We the people are gettin' tired of your lies
 We the people now believe that it's time
 We're demanding our rights to the answers
We elect a precedent to a state of mind
 I trust in conspiracies, in the power of the military
 In this wilderness of mirrors here, not even my speech is free
 Every day I hear a little scream inside
 Everyday I find it's gettin' louder
 I just want to reach out and touch someone
'Cause I find I need a friend in this dark hour
 We the people want it straight for a change
 'Cause we the people are getting tired of your games
 If you insult us with cheap propaganda
We'll elect a precedent to a state of mind
 Every day I hear a little scream inside
 Every day I find it's getting louder
 I just want to reach out and touch someone
'Cause I find I need a friend in this dark hour
 When we the people have our backs to the wall
 Do we the people then assume control?
 When it's too late to stop our own execution
 When we're faced with the final solution
 You can't elect a dream revolution
When you've a bullet in the back of your mind
 It's just a state of mind
