True Confessions

The Undertones

Don't look so surprised
You've been telling me lies
True, true, true confessionsIt's hard to wake up to your makeup
So let's take off that disguise
True, true, true confessionsLet's sit down and sort this out
It's not so hard to talk about
True, true, true confessionsI got a picture from your sister
There was writing on the back
True, true, true confessions
