Give It Away

James

No more you choose to sue for peace where once for war

The mind ingrained can't hear the call

You have so many friends cheering you along

Don't turn a deaf ear to their song

As your world is turning you're holding on

Give it away, give it away

Holding onto right and wrong won't serve you

We keep on fighting to maintain our father's place

This time line never finds an end in revenge

Here comes an open heart to blow it all away

As your world is turning you're holding on

Give it away, give it away

Holding onto right and wrong won't serve you

As your world is turning you're holding on
Give it away, give it away

Holding onto right and wrong won't serve you
As your world is turning you're holding on
Give it away, give it away

Holding onto right and wrong won't serve you
As your world is turning you're holding on
Just give it away, give it away

Holding onto right and wrong won't serve you
Won't serve you
