

If You Give Me Credit

French Affair

I know what you like, I will turn you on
Hot, hot summer night will come along
Dont need conversation
Dont need no explanation If you give me credit I will turn you on
I take you to a place, I know you want to go
Think you gonna like what I have to show
You once style in every way, make me look good today
Diamonds and pearls show that love is true If you give me credit, if you give me credit
If you give me credit, I will be your girl
If you give me credit, if you give me credit
If you give me credit, I will be your girl Lovers come and go, its okay with me
I know what I want and the boys want me
I like to dance, I like it sweet romance
If you dont raise my interest, I wont let you play If you give me credit, if you give me credit
If you give me credit, I will be your girl
(I will be your girl, I will be your girl) If you give me credit, I will be your girl
(I will be your girl, I will be your girl)
If you give me credit, I will be your girl
(I will be your girl) If you dont give me credit, I just walk away
Theres no chance of begging, no, no I wont stay
You can save your dollars, just buy me shiny collars
If you dont raise my interest, I wont let you play If you give me credit, if you give me credit
If you give me credit, I will be your girl
(I will be your girl, I will be your girl) If you give me credit, if you give me credit
If you give me credit, I will be your girl
(I will be your girl, I will be your girl)
If you give me credit, I will be your girl Ooh, ooh, ooh, ooh
