

# Somehow

## Citizen Cope

Could you believe me somehow  
You're second to none  
And you got my love  
You got me under the gun  
Could you receive me somehow  
Ill stay with ya, stay with ya, stay with ya till the end  
Could you believe me somehow  
You're second to none  
And you got my love  
You got me under the gun  
Could you receive me somehow  
Ill stay with ya, stay with ya, stay with ya till the end  
You got your coat on  
Got me focused on  
You're movin in slow motion and  
Every time I see you its just enough  
Cause you and I was meant to be together in love  
And I said all my life  
See I been spending all this time, whoa  
Every time I see ya its just enough  
Cause you and I was meant to be together in love  
[Chorus] You got your coat on  
Got me focused on  
You're moving in slow motion and  
Every time I see you its just enough  
Cause you and I was meant to be together in love  
And I said all my life  
See I been spending all this time whoa  
Every time I see, its just enough  
Cause you and I was meant to be together in love  
[Chorus] x2
