Get Out Of This

Default

Your guilty i see you looking at me do you wan't to see the after show
and i'm trying to get us out of you to finally know where this will go
my head is screaming hate, shame god hope i get out of this alive i, pray god help me get out of this
i'm guilty i blame the shield of dreams the fool you'd think i get away and your tired i bet you never thought the land that you bought would end this way

my head is screaming hate, shame god hope i get out of this alive lost, grave god hope i get out of this alive fault, blame god hope i get out of this alive i, pray god help me get out of this alive
hate, shame god hope i get out of this alive lost, grave god hope i get out of this alive fault, blame god hope i get out of this alive i, pray god help me get out of this
