

# Get Out Of This

## Default

Your guilty i see you looking at me do you wan't to see the after show  
and i'm trying to get us out of you to finally know where this will go  
my head is screaming hate, shame god hope i get out of this alive i, pray god help me get out of this  
i'm guilty i blame the shield of dreams the fool you'd think i get away and your tired i bet you never  
thought the land that you bought would end this way

my head is screaming hate, shame god hope i get out of this alive lost, grave god hope i get out of this  
alive fault, blame god hope i get out of this alive i, pray god help me get out of this alive  
hate, shame god hope i get out of this alive lost, grave god hope i get out of this alive fault, blame  
god hope i get out of this alive i, pray god help me get out of this
