

# Where You Been (feat. Kevin Gates)

## Wash

Where you been  
Where you been  
Baby please tell me where you been I look for you whole my life  
Baby where you been  
I came here with my home boys  
Tell me you got friends  
Never thought I meet someone like you, but then I did  
Tell me where you been  
Baby tell me where you been  
Where you been You been hiding tell me where you been  
I think I seen you outside when I bought the Benz  
I ain't catch your name girl tell me that again  
Let me buy you a drink, no I don't want this night to end (Girl) After 1 or 2 I hope you feel the same way that I  
do  
I just wanna leave the club and get you back up to my room I look for you whole my life  
Baby where you been  
I came here with my home boys  
Tell me you got friends  
Never thought I'll meet someone like you, but then I did  
Tell me where you been  
Baby tell me where you been  
Where you been  
I done looked my whole life baby where you been  
Promise I'll hold you down girl through the thick and thin  
Never thought I'll meet someone like you, but then I did  
Tell me where you been  
Baby tell me where you been  
Where you been Girl you bad, know you hear that all the time  
You aint gotta ask, you know it's yours if it's mine  
So keep on dancing for me yeah I love the way you whine  
If we don't get to the touchin' no that will be a crime, I ain't lie After 1 or 2 I hope you feel the same way that I  
do  
I just wanna leave the club and get you back up to my room I look for you whole my life  
Baby where you been  
I came here with my home boys  
Tell me you got friends  
Never thought I'll meet someone like you, but then I did  
Tell me where you been  
Baby tell me where you been

I done looked my whole life baby where you been  
Promise I'll hold you down girl through the thick and thin  
Never thought I'll met someone like you, but then I did  
Tell me where you been  
Baby tell me where you been What's your name again?  
Where I know you from?  
I think I know your friend  
Not her, your other one  
I been burning lean  
Wanna hit the blunt?  
Sippin' out the cup  
I can give you some  
Am I dick or fool  
Let me give you some  
Been there, wanted you  
Not no hit and run  
And my other dogs  
Lick you with my tongue  
Don't undermine me  
I be goin' dumb  
Polo, watch your step, please don't step on these  
You don't see I'm fresh  
Handle carefully  
Polo underwear got from Bayville  
Designer stalls I do that separately  
What kind of drink you want? That's not my concern  
Tell me when you gone? Let me get my turn  
Why you running from me? Tell me what you heard  
Mouth full of diamonds  
I be slangin' birds  
I be in the hood  
I supply the curve  
And I got a match  
Somewhere in the birds  
Bring you to my spot  
Betta' not say a word  
Rippin' off your shirt  
Make your body jerk  
Baby move your body  
I won't tell nobody  
Dancing like Rihanna  
Make your body work  
I can stand behind you  
Take you to the counter  
Listen to your heart I look for you my whole life

Baby where you been  
I came here with my home boys  
Tell me you got friends  
Never thought I'll meet someone like you, but then I did  
Tell me where you been  
Baby tell me where you been  
I done looked my whole life baby where you been  
Promise I'll hold you down girl through the thick and thin  
Never thought I'll meet someone like you, but then I did  
Tell me where you been  
Baby tell me where you been  
Where you been
