

# Most Beautiful

## Elmo Hope

Wide open eye  
You serious? You delirious?  
Kissing chaos  
Have you got a heart? You could really lose it in the  
Super-People-Mart  
You're the most beautiful thing I know  
And the most beautiful thing is  
When I hear your heart beat Will human be dumb and free  
Or some amazing catastrophe?  
Never too scared to bare  
To care to running to the riot Where the moment meets  
The most beautiful thing I know  
And the most beautiful thing  
Something new, I dunno why? I know all there is, I know  
Where is your how?  
Holding up your frown  
A prop to stop you smiling now Heaven or the heather  
Or the miracles of weather  
But you listen to  
The most beautiful thing I know And the most beautiful thing, darling  
Is where you hear your heart  
Beat is, when I hear your heart
