

Sleepytime

Anne Murray

Close your eyes
It's time to dream
Of all the places that you've never seen
You can walk and you can fly
Through the walls and over the skySleepy time baby
Now lay down your head
Cuz if you're off to dreamland
You've got to get to bedYou can move a tree or grow a flower
Build a castle just where ever you are
Make it all happen what ever you think
Just like magic you can do it in a winkSleepy time baby
Now lay down your head
Cuz if you're off to dreamland
You've got to get to bedYou can be what ever you want
As tall as a giant or as small as a ant
Your favorite hero will be your best friend
And anything that you want is at your commandSleepy time baby
Now lay down your head
Cuz if you're off to dreamland
You've got to get to bedSleepy time baby
Now lay down your head
Cuz if you're off to dreamland
You've got to get to bedSleepy time baby
Now lay down your head
Cuz if you're off to dreamland
You've got to get to bed
